THE SCHOOL FAIR

From a point of interest, exhibition and attendance, the Strathmore and District School Fair was a marked improvement on those held during the past two or three years, and the Executive Committee and all who worked towards the success of the Fair are duly gratified.

One of the judges of the school work stated it was the best exhibit he had ever seen. The Livestock exceeded largely in numbers and quality that of other years, and the judges were highly complimentary in their general comments. Mr Art Hay as President spared no pains to secure competent judges.

For the information of all — as stated in the School Notes Column, on November 5th there will be held a general meeting to which all interested are invited. Plans are under way to increase the scope of the Fair, and these will be discussed at this meeting.

Judges for the various departments are as follows—

School Work— Inspector M. MacLeod and Inspector McCulloch. Singing— Mrs Hunt.

Recitations— Rev. Hunt and Rev. Pearson.

Vegetables & Grains— L. L. Robertson.

Cooking— Mrs Lounsbury. Sewing— Mrs Hyde.

Poultry— Mr Dunkley of Calgary.

Dairy Calves and Swine— Messrs. Thompson & Garrison of Calgary.

Beef Calves, Cattle, Sheep— Mr Weir of Calgary.

Schools competing were— Strathmore, 6 rooms; Namaka, 2 rooms; Hervey; Serwieberry Creek; Orange Valley; Berta Vale; Glencairn; Harwood; Crowfoot; Balntree; Chedoke; Cairnhill; Akemstad; Nightingale.

Tournament and Sports

SOFTBALL TOURNAMENT AND SPORTS HELD FRIDAY AND SATURDAY AT BALL DIAMOND AND SCHOOL GROUNDS

Games Friday—

10.30— Strathmore Team—1 (9) and Berta Vale (4).

1.30— Strathmore Team—2 (15) and Hervey (16). 10 innings.

3.00— Strathmore Team—3 (5) and Orange Valley (3).

Games Saturday—

1.30— Semi-final— Strathmore Team—3 (11) and Hervey (16).

4.00— Final— Strathmore Team—27 and Hervey (10).

Cup to be kept by school winning tournament. Engraved.

The Committee is pleased by the assistance given by some parents in handling sports held in the School Grounds Saturday at 2.30.

There was a fair crowd on hand. It is hoped to encourage rural schools to take part, especially in softball tournaments. This is the second time in the history of School Fair Tournament that the cup has been won by a Strathmore team.

The Cup was presented to Gordon McParland, captain of winning team, by Mr Art Hay, President of the School Fair Association.

LEGION NOTES

ELECT OFFICERS

There was a good turnout at the regular meeting held last Tuesday. The main business was the election of officers and the following is the new slate. President, C. E. Way; 1st Vice, J. Wagsstaff; 2nd Vice, R. E. Gray, Secretary-Treasurer, W. S. Paterson; Executive Committee, A. V. McParland, H. McGregor, J. S. Gunn; Entertainment Committee, J. S. Gunn, A. W. Smith, C. A. MacLean, R. E. Gray, S. H. Crowther, D. J. Schuddeboom; Sick Committee, J. S. Gunn, R. E. Gray, J. Sharp.

Cards from overseas were received with thanks for cigarettes from Art Fricard, O. L. Peterson, H. Freeman, and R. Hinchliff, and letters were read from Art Lowe, Rowe Martin, and Doug Brook.

Members were strong in their support of the Dominion President's appeal for National Mobilization and eager to let him know they were behind him wholeheartedly in his effort.

Four L. A. C.'s of the R. A. F., not long out from Britain, were introduced and gave some first hand information of how the battle goes, which was most interesting. We hope to have them pay another visit soon. W. I. MacKenzie gave a short talk on the course he had taken at Gordon Field which was both instructive and entertaining. Frank Seales gave a few impressions of what he had seen overseas. The V.V.R. have been asked to enter a competition which has been arranged for units all over Alberta. A team of seven will be picked. So far there are about three or four crack shots, and these and others who desire to get on the team will meet at the usual place and time next Tuesday October 21st.

Weekly Paper Officers For 1941-42

At the recent convention held in Edmonton, officers elected for the coming year were: President, L. D'Aubertson, Chauvan; 1st Vice-President, Chas. A. Clark, Jr., High River; 2nd Vice-President, Gordon Neale, Fort Saskatchewan; Past President, Rae L. King, Claresholm. Executive—T. John Huckell, Innisfail; F. Shierholtz, Rocky Mountain; Clive Nesbitt, Brooks; C. Jessup, Nanton; L. Avery, Taber, and F. P. Galbraith, Red Deer. Messrs. King and Galbraith are Alberta's representatives on the Dominion Ass'n.

SCHOOL NOTES

Because of the Teachers' Convention in Calgary on 20th and 21st October school work will be closed on those days.

By reason of the compulsory closing of the schools for the first three weeks in September, the Strathmore School will not present the annual school concert at Christmas this year.

There will be a School Fair Meeting in the Strathmore High School at 8 p.m. on Wednesday, 5th November. We want anyone interested to be present.

ADDRESS BY DR. NEWTON

Warns Sacrifice Readiness Is Needed for Democracy

Democracy can no longer be taken for granted and if people want democracy they must be prepared to make the necessary sacrifices, to fight and die for it, Dr. Robert Newton, acting president of the University of Alberta, said Friday in an address to the annual convention of the Alberta division, Canadian Weekly Newspapers association. Dr. Newton spoke on "Partners in Education."

He was speaker at a luncheon given to convention delegates by the Edmonton Bulletin and The Edmonton Journal. Charles E. Campbell, Bulletin publisher, presided and greetings from the Journal were extended by

WEDDING

RISDON — STOODLEY

A quiet wedding was solemnized in the rectory of St. Michael & All Angels' Church, Saturday evening, October 11th, when Hazel Irene Stoodley and Eric Edward Risdon were united in marriage. The ceremony was performed by the Rev. L. Pearson. The bride chose for the occasion a dusky blue dress of Miracle crepe, with navy blue accessories and carried a bouquet of roses.

Mr and Mrs Harry Dawson supported the bride and groom.

The happy couple left for Calgary where they will reside in future.

A family reception will take place at the home of the bride's parents, Sunday evening, October 19th.

Saturday, December 6th. The Ladies Aid of United Church will hold their annual bazaar in the Sample Room of King Edward Hotel. Keep the date.

W. A. MacDonald, vice-president and managing director. Mayor Fry extended an official civic welcome to delegates.

Dr. Newton said he regarded it a privilege to be a partner with representatives of the press in education of the public. He said the power of the press was well known and it can influence thinking.

"Propaganda is not a good influence," Dr. Newton said. "By withholding part of the truth it becomes propaganda and can become perilous. But the job on hand is to win the war and probably by any means. Propaganda may be a justifiable ruse but it is not good in the long run."

He stressed the importance of education and said an enlightened public was less likely to be stampeded by demagogues. Education has an important role to play in preparing people for equality of opportunity, he said. Education develops the gifts of an individual enabling him to make the utmost use of his opportunities.

"Democracy is an ideal rather than a realized fact," Dr. Newton said. "We never have fully realized democracy and this is obvious when we think of the social defects that still exist. In the nature of things, democracy is dynamic. It can't stand still. The world moves on and we must move with it. There is no going backward."

"Keep Ahead!" Dr. Newton said systems of government tend to outlast the social conditions they were designed to meet. He gave the tremendous advances in automobile manufacture and air transport as examples and said "we should have been adapting our social and economic systems to keep ahead."

He said it was a "general absurdity" that along with the tendency to increase trade restrictions and tariffs there is a growing interdependence of nations.

"The sooner we face the consequences of technological changes the sooner we will get over our difficulties and come to the enjoyment of our potential inheritance," said Dr. Newton. "We still have the same number of farmers in the west trying to enjoy a business that is big enough for only about one-half of them."

Need Industrial Growth—

He said the growth in farm development should have been matched by industrial development in the west.

In the post-war reconstruction period, the world will need straight thinking men, said Dr. Newton. In the re-education for this great task there must be world co-operation, he said.

"Hitlerism is a disease," he said. "It is not enough to defeat Hitler, but we must replace it with something else. It is more difficult to win peace than the war, even so great a war as the one in which we now are engaged."

"We must give all young people the opportunity for the highest possible education. Through education we give natural talents an opportunity to flower. We must give youth the opportunity to serve and get rid of the notion that education is a short cut to privilege."

"We must accept increased planning and control without sacrifice of

THE OUTSIDE

● Montreal— Official Canada has adopted a highly nonchalant attitude toward the St. Lawrence Waterway scheme.

Today the project is still just drifting, waiting for its next visit to the House of Representatives as part of the omnibus Rivers and Harbors bill.

It is reported running foul of a rising revolt on the part of U. S. taxpayers at the widespread new imposts which are now law.

One new angle that is developing in current Washington discussion is the idea that the project stands a better chance of approval if it is dropped as a defense measure and put forward as a major postwar undertaking.

● Read Berlin Diary by Shriver, now appearing in The Calgary Herald. It is illuminating.

● Canadian Rice—

(Peterborough Examiner)

Our correspondent at Trent River tells of a typical Indian encampment on Slaughter Island where four tents are pitched for those who are taking off the annual crop of rice. The Indians will go in a canoe, and paddle into the rice beds. There they bend the tops over the canoe and with a stick beat out the rice from the tops. Primitive perhaps, but a very direct way of saving the rice. The Indian perhaps could show his white brother several things when it comes to providing something on which to sustain life without going to the store and paying for it.

● A resolution from the British Columbia Teachers' Federation urging an intensive campaign of education on health preservation and disease prevention, has been forwarded to Ottawa.

● Here's a mistake to end all mistakes, said the columnist in the Ogden (Utah) Standard-Examiner, publishing the following directions for using a new feeding bottle for infants.

"When the baby is done drinking, it must be unscrewed and laid in a cool place under the hydrant for a while. If the baby does not thrive on fresh milk, it should be boiled."

NIGHTINGALE

By M. H.

All roads lead to Nightingale on Friday, October 24. It is the night of the supper and Red Cross drive at the Hall. Keep the date in mind and come and enjoy the fun. The supper will be served from 7 p.m. after which there will be an auction. An entertainment and dance will close the evening. The charge will be 50c a plate for adults, children to 16 at 25c and children under school age free. Bring any article you wish to have sold for benefit of (Continued on Page Eight)

"They Fly for Freedom"

Dealing with the activities of the men in the sky who have won so important a place in the present war, and of the army of men on the ground whose duty it is to back them up and

keep them flying, a new series of programmes was recently launched entitled "They Fly For Freedom". Heard over stations of the Canadian Broadcasting Corporation, it tells the

story behind the Commonwealth Air Training Scheme and of the thousands of young men from all parts of the Empire who are eagerly developing into pilots, observers, gunners and mechanics. Much of the material used in these broadcasts has been gained first hand. CBC Engineers and producers, along with Gerald Noxon, the author, have journeyed to many of the centres where training is going on and have there recorded the actual sounds and voices of the students and instructors on the spot. Listeners who desire knowledge of the training of the airmen and all that goes to make our Royal Canadian Air Force, will find that this programme is extremely interesting. Normally heard on Wednesdays, at 10.30 p.m.

PRESIDENT OF U. OF A. IS ABLE MAN

DR. NEWTON is a man of vision and strong practical ideas.

With the opening of this Fall term of the University of Alberta Dr. Newton takes on the responsible position of acting President, for which office he was selected last spring.

That the committee of selection chose wisely, all who hear or come in contact with Dr. Newton will be fully convinced.

At the recent convention of Week-

ly Papers held in Edmonton the members were privileged to hear an address by Dr. Newton, and those present were unanimous in their decision that he is exceedingly well qualified and will fill the position with credit to himself and add dignity to the University. Possessing a quiet undemonstrative style of oratory, every word of his thoughtful address finds direct response in the minds of his listeners.

We publish in another column a brief resume of his very able address.

On Creative WritingWestern Towns Rich in History, Prof. Salter Tells Convention.
"Creative Writing"**WRITERS** for weekly newspapers in scores of western towns should strive to leave behind them a great tradition of integrity, honesty and fearlessness by which future generations may benefit. Prof. H. M. Salter, University of Alberta English professor, said Friday in an address to the annual convention of the Alberta division, Canadian Weekly Newspapers' association.

Prof. Salter, speaker at a convention dinner in the Macdonald, spoke on "Creative Writing." Hosts at the dinner were Clark Bros., Ltd., Berber Ellis of Alberta, Ltd., M. D. Wetmore Sales, Ltd., and Smith Davidson & Wright, Ltd. C. S. Young, manager of Clark Bros., presided.

Prof. Salter spoke of the influence of the press on public opinion and praised the independence and honesty of the weekly newspaper editors in Alberta.

He urged his listeners to "continuously build up memories" during their daily work in their respective small towns. He said such towns are rich in the material from which stories and history are made.

"I am anxious that the boys and girls of Alberta have decent towns to live in so when they come to me at university, I will have something to work with," he said. "I hope the weekly newspapers are doing something to reserve the history of Alberta to let the children know something of the inspiring history we have here."

ROCKYFORD

— By M. E. —

Herb Busch from the R. C. A. at Vancouver is home on leave.

Edmund Bragg of the R.C.A.F. Edmonton was visiting his parents on his 48 hour leave.

Also seen over the week end was Harold Stark on leave.

Mrs. Borghild Bowser and Miss Winnie Nockeby from Cedar Rapids, Iowa are visiting their sister Mrs. Falconer.

by K. M. G.

A large crowd of friends gathered at St. Rita's Church on Saturday morning, October 11th to pay their last respects to the late Albert Achille Geereart, eldest son of Mr. and Mrs. Peter Geereart who passed away in Calgary on October 8th, after about 8 months illness. Father Kil'een sang Holy Mass and conducted the service. Jacques Funeral Home were in charge of arrangements. Albert Geereart left to mourn his loss, besides his mother and father, four sisters, Mrs. F. Hutchins of Calgary, Mrs. Kathol, and Elizabeth and Agnes of Rockyford; 5 brothers, Harry of Vermilion, Carl, Louis and Peter of Rockyford and Pte. August Geereart now located at Hamilton, Ont. The sympathy of the entire district goes out to the family in their sad loss in the eldest son and brother and makes the first break in the home.

Several of the enlisted boys from this district were home on Thanksgiving leave. Amongst them were Edwin Bragg and Herbie Busch and Bert Erswell, now Sergt-Major.

Miss Doris Williams who is now attending University at Edmonton was home for the long week end.

The last few days of dry weather and drying winds has made it possible to resume harvesting at many farms, and the farmers are passing up no opportunities to get at it again.

Hundreds of hunters made the most of Monday's holiday to comb the district for pheasants which seem to be quite plentiful this season. Many reported they had brought down their allotment for the first day of the open season.

Mr. and Mrs. Stone had as their company over the week end Mr. and Mrs. George Hindson of Calgary, Miss Betty Wright of Edmonton and their son Robert who is now on the bank staff at Hanna.

The regular meeting of the United Church Ladies Aid was held at the church parlors on Thursday, Oct. 9th with the president Mrs. Bradwell in the chair. It was rather a busy session making plans for the anniversary Jitney Supper which will be held in the church basement on Monday, Oct. 27th from 6 to 8 p.m. A program and lecture will be held in the church after. During the social hour Mrs. Howick and Mrs. McLuhan served a delightful lunch.

TREES FOR PLANTING

**TO BE DISTRIBUTED BY
THE FOREST SERVICE,
GOV'T OF ALBERTA**
By Hon. N. E. Tanner,
Minister of Lands and Mines

With 1941 entering its last quarter, the all-important question of tree planting for the coming year presents

itself once more for serious consideration.

The importance of this annual undertaking has been often emphasized by the Department during past years and it is gratifying to note the ever-increasing interest taken in this matter. The vital necessity for trees and more trees has been continually pointed out — their important place in Alberta's agricultural life and the benefits which they provide. It is hoped and believed that this interest will continue.

The following information has just been issued by the Forest Service, which gives details regarding the distribution of trees for planting to be made after the turn of the year.

Trees, free of all charge excepting the express charge covering shipment, are to be given by the Forest Service to farmers in the province for the following purposes—

1— For planting within natural poplar or willow bluffs.

2— For replacements in established windbreaks or shelterbelts.

3— For additions to established windbreaks or shelterbelts, where the trees to be planted are set out close enough to the old plantation that they receive protection against wind and in the case of conifers, against the sun, by the established trees.

Applications for rural schools and cemeteries will be given consideration.

Trees are not available for beautification only, nor for the establishment of new windbreaks or shelterbelts.

Persons requiring trees for the former purpose should secure them from commercial nurseries, and for the latter should apply to the Dominion Department of Agriculture, Tree Planting Division, Indian Head, Sask.

Trees available for distribution in the spring of 1942 include the following—

White Spruce, Lodgepole Pine, Red Pine, Green Ash, Bur Oak, Douglas Fir.

Siberian Larch, White Oak, Red Oak—not more than 10 to each applicant.

American Elm—not more than 5 to each applicant.

In addition to the above, cuttings of laurel, leaf willow, golden willow and northwest poplar will be available.

Application forms may be obtained from the Director of Forestry, Administration Building, Edmonton. These forms must be received by the Director of Forestry, properly filled in, before January 31st, 1942.

WORLD OF WHEAT

By H. G. L. Strange
Director—“The Crop Testing Plan”

During the summer of 1940 the “Crop Testing Plan” analyzed just over 13,000 growing samples of wheat, each sample representing a field of wheat. Approximately 5,000 of these samples were found to classify as C's or Mixtures, which meant that the farmers growing these fields of Mixtures or of undesirable varieties were losing money because of low yield and poor grade.

From reports of the distribution of seed actually made, it is found that the Elevator Agents succeeded in persuading just over 41 percent of those farmers who had C's and Mixtures to purchase some Registered or Certified seed; those farmers, therefore, who purchased better seed have improved their crops, and so will make more money from their efforts. In addition they have helped to improve the general quality of Canadian wheat offered on world markets.

This work has now been going on for 10 years, and each year has shown about the same percentage of improvement. It has been interesting to note that very few of the farmers who were growing poor quality crops were aware of it until the Cereallists or Plant Breeders pointed out the Mixtures and undesirable varieties which their crops contained.

WINDOW LICENCE CERTIFICATE being issued by the Wartime Prices and Trade Board to all persons and firms included in the nation-wide licensing plan. A combination of blue and gold, the licence certificate must be placed on the door or an adjoining window of the licensee's place of business. Deadline for securing a licence is December 1st, 1941.

WORLD OF WHEAT

(By H. G. L. Strane)
Director— The Crop Testing Plan

The U. S. A. Government believes that the purchasing power of any agricultural product should be the same as it had in 1913-14. This purchasing power they call "parity". In Canada today the wages of industrial workers average 27 per cent above such 1913-1914 parity. The price of sheep is 11 per cent above parity, of hogs 17 per cent above parity, butcher steers 14 per cent below parity, and the price of wheat at 73 cents Fort William is 46 per cent below such parity. The price of American wheat at Chicago \$1.19 is about at "parity".

It is evident, therefore, that industrial workers and the farmers who are producing mainly livestock products are not badly off as compared with 1913-1914, but the Canadian farmer who depends mainly upon wheat for a living is most certainly in a bad way, for in addition to this serious handicap of low price, the wheat grower's income is still further decreased by the Government's reduction of the amount of wheat the grower can sell. The wheat grower, therefore, certainly deserves the most sympathetic consideration and active assistance of the Dominion Government. Considering the great military value of our wheat surplus, I often think that none have done more for this war nor received so little reward for their services as our wheat growers.

THE WEEK IN EDMONTON

(BY DAN E. CAMPBELL)
(Director of Publicity)

● Facts About Cancer—

Until the 20th century the diagnosis of cancer was rarely made until the disease was so far advanced that cure was hopeless. This led to two wrong conclusions prevalent today.

FALSE— That diagnosis of cancer meant the patient's death warrant. That if a patient recovered, it was not cancer.

This belief is all wrong, because—
TRUE— Due to the wonderful achievements in modern medicine, cancer can be diagnosed now in its early stages.

Cancer can be cured if the patient consults his doctor in time.

● National Road Commission—

A national road commission for Canada was urged by Hon. W. A. Fal-
low, minister of public works, when he addressed an opening session of the Canadian Good Roads Association at Niagara Falls this week. The minister said coast-to-coast highways were more necessary than ever in this time of war, and added that a Commission ought to survey routes and make recommendations, which would be carried out through the Dominion in the various provinces.

Fifty men were needed in Edmonton this week to commence training in mechanical work for industrial plants, according to Dr. G. Fred McNally, deputy minister of education for the province. Training is conducted through 44 hour weeks for about 600 hours without charge to the trainee for lessons, tools or supplies. They are expected to provide their own board and room in the city. Graduates will find employment in aircraft or munition plants somewhere in Canada added Dr. McNally.

● Formation of a new credit union of the community type at Macleod was announced this week by the minister of trade and industry. Organization and election of officers will be completed shortly, it was stated. Increasing interest in the community type of union is evidenced in many parts of the province. Altogether 15 new groups are in process of formation. There are 40 in active operation. These have a total of 4,200 members, and since inception of the movement in 1938 loans totalling \$425,000 have been made for provident or merchandizing purposes to members.

● Convention for Monetary Reform—
Thirty six government members of the Legislature met in caucus during the week to discuss problems relative to refunding and taxation arrange-

ments proceeding at the present time. Also considered were plans for the national convention of monetary reformers called for October 27 to 29 in Winnipeg.

● Pure Bred Stock Exchange—

The province was a heavy buyer of pure-bred rams at Edmonton stock show, held this week. In all, 43 of the animals were purchased and will be distributed to sheep raisers taking advantage of the pure-bred sire exchange policy. Officials of the department of agriculture said forty orders have been received to date.

● Finance in Province—

Alberta's financial condition at the last fiscal year, March 31, was favorable, with an overall surplus of \$2,270,845.19, an increase of \$1,934,293 over the previous year's surplus. This was disclosed by the Public Accounts released this week by Provincial Treasurer Hon. Solon E. Low. The provincial debt was decreased \$3,000,000 in the same period.

My, Mr. Needham certainly gets around.

Robinson will continue his exciting adventures as Steve Wilson, the hard hitting managing editor of the Illustrated Press in Big Town. Miss Munson once more will play Lorelei Kilbourne, the scoop-getting girl reporter who shares his thrilling newspaper and civic experiences.

NIGHTINGALE (Continued from Page One)

the Red Cross.

Heartiest congratulations go to Mr and Mrs Eddie Radon (nee Hazel Stoodley) who were married at the Anglican manse last Saturday.

Mr Harriman had as guests last week his nephew Flight Lieut. Max McDiarmid and his friends C. O. Sharp and Flight Lieut. J. Smith. The Valley Grade teachers have in its walls a swarm of bees. Mr Trimble secured some honey and still wonders just how to move the bees without destroying them. He had no regrets whatever though when he backed his car to the house and gasped a family of skunks who had moved under the house. This operation was successful.

Some hunters are very careless. A farmer near here had his house splattered with shot from the gun of an excited sportsman who could see nothing but the game. The man beat a hasty retreat when he realized just what had happened. Another neighbor reports a horse with shot in his two front legs.

Mrs Al Morton entertained the Woman's Institute at her home last Thursday. What I have to be thankful for, was the roll call and 17 members answered. These ladies all appreciate their blessings. The sum of \$2.60 was voted to be sent to Institute War Service Fund. Further plans were made for the community supper and Red Cross Drive. It was necessary to postpone the date to October 24th on account of the Veterans dance in Strathmore on the 17th. Mrs Henry Hilton gave a very interesting account of her summer trip into B. C. and a hearty vote of thanks was given. Mrs Morton assisted by Mrs C. Way served a delicious tea. Welcome guests at the meeting were Mrs Cliff Dawson, Mrs H. Kleiner, Mrs Smith, and Miss Nettie Taylor.

V-shaped carrot and potato were among the vegetables grown in Mr Henry Hilton's garden. There is no doubt that this is proof of the patriotism of this country.
